Family Constellation Training

Starting April 2009, we are offering a training in Family Constellation in Montreal. Family Constellation work, as developed by renowned psychotherapist Bert Hellinger, has grown rapidly in Europe and is now gaining international attention.

The training will comprise six three-day modules spread over two years. During the training, meetings are planned every four to six weeks, so trainees can explore the work together under professional guidance.

A certificate of completion will be issued at the end of the course.
